

Theodore Skafidas

Amesbury, MA 01913 | (339) 205-5051 | theodore_skafidas@outlook.com

Skills

Software: Excel, Visual Studio 2019, NI Multisim, Digilent Waveforms, Intel Quartus Prime, Altium Designer, SolidWorks, LT Spice

Programming: Experience in C, C++, Python, MATLAB, and ARM Cortex-M0+, exposure to Linux

Technical: Oscilloscopes/Digital Multimeters/Function Generators, Technical Report Writing, Test Plan Development, Hardware Testing/Validation, PCB Prototyping/Debugging, Soldering & Rework, Sensor Integration, Analog & Digital Electronics, STM32 Microcontrollers

Project Experience

Reconfigurable IC Test Fixture (Capstone Project)

September 2025 – May 2026

- Developed a modular hardware platform for the Naval Undersea Warfare Center to automate functional verification of digital integrated circuits
- Designed and simulated precise voltage reference circuits and power regulation stages to support multiple logic-level standards

LED Infinity Mirror (Electronics Lab II)

October 2025

- Designed an octagonal infinity mirror using an analog-to-digital converter to translate sensor data into digital LED control for 40 light-emitting diodes
- Developed a dual-mode system featuring a light-reactive sensor mode and a pattern mode driven by a waveform generator and op-amp integrator

Combinational Resistor Validator (Electronics Lab I)

December 2024

- Designed and built a circuit using Op-Amps and BJTs to verify resistor values and order

Leadership Experience

Omicron Pi Fraternity - Treasurer

January 2024 - January 2025

- Responsible for balancing a monthly budget of over \$9000 including rent keeping and general bills
- Maintaining detailed records and forecast income and expense projections during weekly chapter meetings

Education

University of Massachusetts Lowell

September 2022 – July 2026

Bachelor of Science in Electrical Engineering

Relevant Coursework: Electronics II Theory & Laboratory, Logic Design, Differential Equations, Signals & Systems, Microprocessor Systems Design II, Electromechanics, Engineering Electromagnetics II, PCB Design

GPA: 3.2

Work Experience

YMCA Camp Lincoln, Kingston, NH

June 2021 – August 2021

- Managed a group of 30 children ages 6 – 14 years in activities designed to bolster communication, teamwork, critical thinking, and social development
- Promoted safety and good sportsmanship, and conflict resolution during physical activity
